

Teen Driving Workshop – *for Parents*

Your teenager is more likely to be seriously injured or killed in a car crash - than from all other causes combined.

As the parent of a teenage driver, your role is critical.

Car crashes can be reduced by up to 1/3 when parents take an active role in their teenager's driving education.

Join us for a practical workshop for parents of teenage drivers.

Learn the real facts about teenage driving risks. Find out what you can do to make a difference.
